Core Policy**

Engine core must be returned within 90 days after the factory invoice date for domestic customers and within 120 days of the factory invoice date for international customers. *Cores received at Teledyne Continental Motors after 120 days will be refused and returned to sender, freight collect.*

- Customer agrees to return to TCM the SAME engine that has been removed from the aircraft that received the replacement factory engine.
- Core returned must be in complete, runnable and repairable condition.
- No core can be returned that has been disassembled in any respect or that has had any parts removed or replaced (other than "in-service" part replacements).
- Returned cores MUST be sent directly to TCM and be identified with Distributor's name, RGA (Returned Goods Authorization) number and engine core invoice number and must include the logbook for the aircraft from which the engine was removed.
- In the case of an engine core returned to TCM that is determined to be missing parts, TCM may at its sole discretion accept the engine core and reduce the applicable engine core credit by the list price in effect for any missing part(s) at time of engine core receipt.
- Any core returned to TCM that is worn or damaged beyond economical repair shall be subject to reduced engine core credit or rejection.

I agree to abide by the Teledyne Continental Motors Core Policy. In the event that I fail to abide by the policy as stated above, I agree that Air Power, Inc. will deposit my core check, 120 days after the factory invoice date. I understand that any reductions made by the factory are my responsibility. I also understand that TCM will not accept any engine core return after 120 days. Upon the core shipment to the factory, I agree to furnish Air Power, Inc. with the tracking # and date shipped.

***If you have any questions regarding the accuracy of the serial number you are returning, please call our Air Power, Inc. Core Administrator at 800-247-7693.***
